Position: **Senior Technologist**

Glancy Nicholls Architects are seeking to employ a Senior Technologist.

The successful candidate will be enthusiastic and excited for the opportunity to work, and grow, in a vibrant studio environment. The candidate will be dynamic and keen to innovative, pushing the boundaries to ensure the highest quality work. Glancy Nicholls Architects will support their growth, ensuring continual professional development. Their ambition will be wholly supported and developed to reach their fullest potential.

QUALIFICATIONS:

CIAT Accredited Degree in Architectural Technology BSC or equivalent CIAT Accredited course

EXPERIENCE REQUIRED:

- 5 years post-qualification experience required.

ROLE WITHIN PRACTICE

Project runner and design team co-ordinator generally focusing on a single primary project.

Client liaison either independently on small commissions or independently / under guidance of project lead on larger projects.

Represent the practice externally through client, consultant liaison and networking events.

Mentoring of less experienced staff members.

Developing project and team leadership role within the practice.

Developing technical design approach and bringing experience to the realisation of design concepts.

Key role in the development of design proposals from RIBA stage 4 onwards & involvement in project development across all work stages.

JOB FUNCTION

Essential post for the development of projects from RIBA stage 4 onwards. Dependent upon project sizes, generally concentrating on a single larger project with others in development.

The primary day to day project running role generally post contract, with responsibility and reporting direct to Associates and Directors. Sound knowledge and understanding of the roles and responsibilities of the design process in accordance with RIBA guidance and good practice. Able to work autonomously whilst managing and supervising other office resources whilst responding to project requirements.

RESPONSIBILITIES

Provision of Technical Services including:

- Technical Design
- Design team coordination
- Chairing and documenting design team meetings
- Attendance at (and running where necessary) site meetings
- Preparing project programme

Maintaining records of site visits and telephone conversations.

Issuing and receiving drawings and other project information.

Management of planning protocols and liaison with the relevant local authority officers.

Management of building regulations protocols and liaison with relevant authorities.

Maintenance of relevant progress trackers.
