ROLE WITHIN PRACTICE

Project runner and design team co-ordinator generally focusing on a single primary project.

Client liaison either independently on small commissions or independently / under guidance of project lead on larger projects.

Represent the practice externally through client, consultant liaison and networking events.

Mentoring and management of less experienced staff members.

Developing project and team leadership role within the practice.

Developing technical design approach and bringing experience to the realisation of design concepts.

Involvement in project development across all work stages.

JOB FUNCTION

Essential post for the development of projects at all levels. Dependent upon project sizes, generally concentrating on a single larger project with others in development.

The primary day to day project running role generally post contract, with responsibility and reporting direct to Associates and Directors. Sound knowledge and understanding of the roles and responsibilities of the design process in accordance with RIBA guidance and good practice. Able to work autonomously whilst managing and supervising other office resources whilst responding to project requirements.

Key second stage development of long-term working relationship with clients with day to day responsibility for client liaison and reporting.

RESPONSIBILITIES

An architect will be expected to be aware of the company's agreed scope of service and to work within these requirements. They should advise the team leader if at any point they believe additional services are being requested by the client.
